[Capital City Cheer](#) - Shot and edited by me.

[Capital City Ninja Warrior](#) - Shot and edited by me.

Photos by me. I also have a page on [Facebook](#).

I've been doing photography/videography for over 6 years now so there is a lot more content that I've created that I can show you, but I figured this would be enough. As you can see I have worked on a wide variety of productions and sets both on-location and in-studio. I've used Canon, Sony, Blackmagic, and Red cameras. I have experience with both Arri and Profoto lighting equipment. I also know Premiere, Photoshop, After Effects, Lightroom, Audition, Resolve, Blender, and FL Studio.

I hope you found all this helpful in making your decision and am grateful for your consideration of my application.

Thanks,
Gabriel
